Brother introduced the company's first laser printer in 1987, and two years later, their first label printer hit the market, the Brother P-touch. In 1995, Brother released their first black and white All-in-One laser printer, the Brother MFC4500ML. This device included a printer, scanner, copier, and fax machine. A decade later, in 2005, Brother created their first color All-in-One laser printer, the Brother MFC9420CN. The same year, they launched an inkjet garment printer, the Brother GT541, which enabled users to print images onto fabric. Their printers offer a variety of features at a range of price points. Brother circuit diagrams, schematics and flowcharts, service guides, replacement hardware lists and repair manuals are taken from the company's official website. To browse
